Executive Summary :

Currently pursuing **Bachelor of Engineering in Computer science** final year and has experience in fullstack application development by building projects. Eager to learn and explore new technologies to solve real world problems. Interested in **Fullstack development** and its relevent domains (**Frontend Development and Backend Development, Devops, Cloud Deloyment**).

Skills and Knowledge :

Frontend Skills : Reactjs, Vite , Bootstrap, Tailwind CSS, Material UI, Javascript, HTML, CSS.

BackendSkills:Nodejs,Expressjs,SQL,Mongodb,Redis,Docker,Firebase,appwrite, Amazon Web Services,Postman,Rest api with MVC architecture.

Devops Skills : Git , Github, Gitlab, Bash command.

Domain Skills : Fullstack development, Devops and Cloud Computing.

Programming Languages : Python, Javascript.

Soft Skills : Communication,Collaboration,Problem solving and Troubleshooting,Documentation,Teamwork,Adaptability,Eager,Public speaking,Stratergic thinking.

Projects :

- **Stock Tracking Application – Stock Rover** | [Docs](#)
 - Type : Freelanced project
 - Features : Real time tracking, Graph first application, Snapshot function, Crypto tracking.
 - Tools : Reactjs, Render, Tradingview widget.
 - Impact : Client had cleared the final year assessment by this project.
- **Weather Application – StormGeo** | [Docs](#)
 - Type : Personal project
 - Features : Weather tracking, Humidity analysis , Temperature tracking , Mobile first Application.
 - Tools : Reactjs, CSS, Render, Openweathermap API, Axios.
 - Impact : Learnt to implement to fetch api in reactjs.
- **Todolist Application – Scratchpad** | [Docs](#)
 - Type : Personal project
 - Features : Task management, CRUD operation.

- Tools : Mongodb, Nodejs, Expressjs, EJS, Render.
- Impact : Learnt to implement the editor for applications.
- Some of the **small projects** like Rock paper scissors, Calculator, Gaming-site, Digital clock...

Work Experiences :

- **Web development intern** – Aug 2024
 - Attended an **Web development internship** in Immaculate technologies.
 - Learned about frontend, backend and database.
- **System admin intern** – 5 month – Feb 2024
 - Attended an **System administrator internship** in **Cisco NDG** platform .
 - Learned to handle the linux servers and server networkings.

Educations :

- Ultra college of engineering and technology.
 - Bachelor of engineering in Computer science
 - CGPA : 7.64 / 10

Certifications and Achievements :

- Fullstack Development certification – Udemy
- Cloud Computing Certification Badges – AWS educate
- Linux Servers and scripting – Cisco NDG
